MESSAGE FROM UNIT SEVEN SCHOOLS SUPERINTENDENT

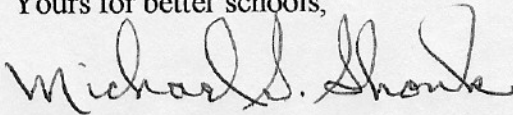

To Students, Staff, and Parents of Community Unit School District #7:

Based on recent national, state, and local events regarding school safety, the administrative team of CUSD #7 believes it necessary to reassure students, staff, and parents that we have Safe Schools/Crisis Management Plans in place. We take any threat to our students and staffs very seriously. Our procedures include investigating, researching, interviewing, and gaining whatever factual knowledge we can based on information we have received. We collaborate and cooperate with local law enforcement agencies and first responders in this process and act accordingly based on factual evidence and witnesses' accounts.

Each one of our four attendance centers has a Safe Schools/Crisis Management team that periodically reviews and updates these plans. We feel that we have excellent plans in place to deal with emergency and crisis situations. In addition the Board of Education's policy relating to gross disobedience and misconduct directs our discipline for any violation of this policy.

If you have any questions, please contact you building administrator. Thank you for your support of the Unit Seven Schools.

Yours for better schools,

Michael S. Shonk
Superintendent of Schools
